# 1. Introduction

## 1.1 Background

The Municipality of Northern Bruce Peninsula is home to 4,404 full time residents (Statistics Canada, 2021) spread across multiple small communities Lion's Head and Tobermory, Dyers Bay, Miller Lake, Stokes Bay, Pike Bay, Ferndale, and Barrow Bay. Contained within municipal boundaries is the Bruce Peninsula National Park, Fathom Five National Marine Park, the Bruce Trail, Cabot Head and Lion's Head Nature Reserves, two First Nations Hunting Reserves and the Lindsay Forest Tract. Northern Bruce Peninsula is celebrated as a UNESCO World Biosphere Reserve, an internationally designated protected area, and is one of eight municipalities in Bruce County.

Northern Bruce Peninsula's Official Plan states that the goal of the community improvement plan (CIP) is "to improve facilities and infrastructure in the municipality's three urban areas that contributes to community health, environmental, social and economic priorities and needs of the community."

In 2013, the Municipality of Northern Bruce Peninsula approved a community improvement plan (CIP) (by-laws 2013-57 and 2013-58) that encompassed secondary urban areas of Tobermory and Lion's Head and the hamlet of Ferndale. This document will replace that previously developed CIP. This CIP enables additional opportunities that encourage the revitalization of existing buildings and redevelopment of properties within the municipality through a variety of financial incentives.

In 2022, Bruce County expanded their Spruce the Bruce community development incentive program. To gain full access to these grants the Municipality of Northern Bruce Peninsula redeveloped this policy to align with existing municipal goals and county priorities.

## 1.2 Purpose

The purpose of the community improvement plan (CIP) is to adopt a program of financial incentives that encourage the redevelopment and improvement of private lands throughout the Municipality of Northern Bruce Peninsula. These redevelopments and improvements aim to enhance the character of the municipality and its traditional commercial areas.

The purpose of financial incentives is to assist businesses and property owners in the redevelopment and improvement of their properties. In turn, projects supported under the CIP will contribute towards municipal goals defined in this policy and others.

The CIP applies to all areas of the municipality. Specific financial incentives are developed to target the different needs of each of these areas. This CIP will allow for businesses and property owners in Northern Bruce Peninsula to participate in Bruce County's Spruce the Bruce Program.

The municipality can provide financial incentives within the defined community improvement project areas (CIPAs). It enables both the municipality and Bruce County to participate in or implement financial incentives that can support future development and investments.

## 1.3 Methodology

Defining the goals of the community created the strong foundation for this community improvement plan (CIP) policy. The policy was created following a review of existing guidelines, planning documents, current incentive programs, and an in-depth community consultation process. This consultation process involved council members and staff of the Municipality of Northern Bruce Peninsula. The consultation process identified and defined key areas to ensure the policy supports future growth across the entire municipality.

### 1.3.1 Guiding Documents

Local plans, reports, and studies were reviewed when building the foundation of this modernized community improvement plan. Key guiding documents are summarized below.

#### 1.3.1.1 The Municipality of Northern Bruce Peninsula Strategic Plan (2021)

The Municipality of Northern Bruce Peninsula's strategic plan is used by municipal staff and outlines a path to making the municipality a livable, welcoming, and thriving place for all. The 2021- 2025 Strategic Plan identifies that same four priority areas as the previous five years. The four priorities are:

1. Strong and resilient economy.
2. Transparent and responsible government.
3. Sustainable environment and infrastructure.
4. Safe and vibrant communities.

#### 1.3.1.2 Bruce County's Spruce the Bruce Program (2022)

Bruce County's Spruce the Bruce program offers financial incentives to eligible applications within a community's CIP. These grants are enabled through municipal policies and offer improvements to designated downtown areas. The grants make designated downtown areas

more attractive, distinctive, and pedestrian friendly. In 2022, the program was enhanced to target additional industries and regional needs. Grant offerings extend past the downtown cores but are still within a designated community improvement project area (CIPAs). The additional grants support the revitalization of agriculture and tourism sectors and support redevelopment relating to business accessibility and nurturing mixed-use development.

## 2. Legislation

### 2.1 Ontario Municipal Act (2001)

Municipal activities are governed by The Municipal Act (2001), which is the principal statute that governs the administration of municipalities and sets out municipal powers. While the act provides opportunity to provide tax reductions related to heritage, municipal, or education purposed properties, it generally prohibits municipalities from providing incentives or bonuses to commercial enterprises. However, exceptions are provided where a municipality participates in a community improvement plan (CIP), as part of Section 28 of the Planning Act, R.S.O. 1990.

### 2.2 Ontario Planning Act (1990)

Section 28 of Ontario's Planning Act allows municipalities to prepare community improvement plan (CIPs) to establish a framework for supporting and implementing programs to encourage development and redevelopment, in accordance with official plan policies. Whether the reasons are physical, social, economic, or environmental, a community improvement approach is a flexible, comprehensive, co-ordinated, and strategic framework for dealing with lands and buildings. For the purposes of carrying out a CIP, a municipality may engage in the following activities within the community improvement project area (CIPA):

- a. Acquire, hold, clear, grade or otherwise prepare land for community improvement (Section 28(3)).
- b. Construct, repair, rehabilitate or improve buildings on land acquired or held by it in the CIP project area in conformity with the CIP (Section 28(6)).
- c. Sell, lease, or otherwise dispose of any land and buildings acquired or held by it in the CIPA in conformity with the CIP (Section 28(6)).
- d. Make grants or loans to registered owners, assessed owners and tenants of lands and buildings within the CIPA, and to any person to whom such an owner or tenant has assigned the right to receive a grant or loan, to pay for the whole, or any part of the cost of rehabilitating such lands and buildings in conformity with the CIP (Section 28(7)).
- e. Eligible costs can be related to environmental site assessment, environmental

remediation, development, redevelopment, construction and reconstruction of lands and buildings for rehabilitation purposes, or for the provisions of energy efficient uses, buildings structures, works, improvements, or facilities (Section 28(7.1)).

- f. The council of an upper-tier municipality may make grants or loans to the council of a lower-tier municipality and the council of a lower-tier municipality may make grants or loans to the council of the upper-tier municipality, for the purpose of carrying out a community improvement plan that has come into effect, on such terms as to security and otherwise as the council considers appropriate, but only if the official plan of the municipality making the grant or loan contains provisions relating to the making of such grants or loans (Section 28(7.2)).

## 2.3 Provincial Policy Statement (2020)

CIPs help to achieve the Provincial Policy Statement (PPS) objectives of healthy communities, a clean and safe environment, and a strong economy. Community improvement is supported through PPS policies for:

- a. Building strong healthy communities.
- b. Promoting efficient development and a mix of land uses.
- c. Ensuring that necessary infrastructure and public service facilities are available.
- d. Improving accessibility.
- e. Conserving heritage resources.
- f. Supporting green design.
- g. Encouraging residential intensification.

## 2.4 The Official Plan for the Tobermory and Lion's Head Secondary Urban Areas, and the Hamlet of Ferndale (2012)

This vision of Northern Bruce Peninsula's Official Plan is to be committed to creating economic stability that is progressive and diverse while still protecting the cultural, social, and natural environments. To reach these goals, section 4.3 of the official plan qualifies the municipality for the preparation and implementation of community improvement governed by Section 28 of the Planning Act (1990). The official plan allows for any area with the municipality to be subject to a community improvement project area (CIPA) if they fall within the set criteria. The community improvement plan (CIP) establishes programs offered to public and private landowners, that aim to implement the goal and objectives of the official plan community improvement policies.

## 2.5 County of Bruce Official Plan (2010)

The Bruce County Official Plan provides guidance on local community improvement plan (CIP) areas and programs. It encourages local municipalities to adopt CIPs in accordance with the county and local official plans. Furthermore, Bruce County's Official Plan has identified all areas of the community as having the potential to be identified as a community improvement project area by respective municipalities or by the county.

## 3. Goals and Objectives

The Northern Bruce Peninsula Official Plan outlines the community improvement goal in Section 4.3.1. "to improve facilities and infrastructure in the municipality's three urban areas that contributes to the community health, environmental, social and economic priorities and needs of the community."

Section 4.3.2 outlines the following objectives:

- a. To improve the physical appearance and economic health of the downtown commercial areas and provide connections to the waterfronts of the municipality while elevating the status of these areas as destinations and promoting their unique community identity.
- b. To encourage development and redevelopment on private and/or public lands to improve the appearance and functionality of the downtown commercial areas, waterfront areas and recreational areas/facilities of the municipality.
- c. To improve and enhance the recreational facilities/opportunities within the municipality by creating communities that are attractive, pedestrian-friendly, and distinctive as guided by the Municipality's Master Recreation Plan.
- d. To ensure a built environment that supports and encourages active transportation while reducing automobile dependency and implement measures that ensure it is accessible to all.
- e. To promote the improvement of energy efficiency and other environmental standards for residential, commercial, industrial, public, recreational, institutional, and other uses within the designated community improvement project areas.

Financial incentives outlined in this plan may be offered to tenants or property owners to assist in meeting these goals. Incentives available may change from year to year.

## 4. Project Areas

Section 28(1) of the Planning Act (1990) allows a municipality to define a community improvement project area (CIPA). The Planning Act defines a CIPA as “a municipality or an area within a municipality, the community improvement of which in the opinion of the council is desirable because of age, dilapidation, overcrowding, faulty arrangement, unsuitability of buildings or for any other environmental, social or community economic development reason.”

The Northern Bruce Peninsula Official Plan provides a list of criteria for selecting CIPAs. The previous project areas covered only the downcore cores of Tobermory and Lion’s Head. This CIP now includes an expansion of these previous downtown CIPAs to encompasses the entire municipal boundaries of Northern Bruce Peninsula. Tobermory, Lion’s Head, and Ferndale are defined priority project areas and will have specific incentives focussed on downtown development, as outlined in this policy.

The municipality shall designate the expanded CIP project area by by-law. The programs authorized in this CIP may be carried out within the community improvement project area (CIPA) as identified in Schedule A.

- b. Approved incentives allocated to a specific property are not transferable to any other property.

## 5.2 Forms of Incentives

Financial incentives can be provided to properties in the community improvement project areas (CIPA) as indicated below or a combination of a grant and a loan.

### 5.2.1 Grants

Grants are typically used as a matching program for related costs or fees to an eligible project. Awarded grants cover a portion of the capital cost of the improvement to an overall maximum amount. Costs may include necessary professional design fees, material, and labour. Each grant category (Section 5.3) will provide details of available funding.

## 6. Program Implementation

### 6.1 Administration

The community improvement plan policy is administered by the Municipality of Northern Bruce Peninsula, with exception to the Spruce the Bruce program which are administered by Bruce County. These programs are led by the municipality's chief administrative officer and economic development staff with support from other departments for administration, review of applications, and funding disbursements.

### 6.2 General Budget

Council determines the amount of available municipal funding to be made for these financial incentives under this community improvement plan (CIP) on an annual basis. The total of all grants and loans provided in this CIP shall not exceed the eligible costs to remediate, rehabilitate, revitalize, and redevelop the lands and/or buildings. Any improvements made prior

to the adoption of the CIP are not eligible for financial incentives under the CIP.

Based on any number of factors, council or its designated authority may choose to operationalize the following if it still fit within the criteria of the program:

- Cease, reduce, or increase funding to one or more of the financial incentive programs.
- Create a maximum/cap of the percentage allocated for an individual incentive.
- Designate a maximum dollar amount allocated to a specific incentive.
- Assign a maximum amount to be used as a pool.
- Limit funds to specific incentive programs to support municipal goals.

Any adjustments to program funding or the amount of the annual budget will not require an amendment to this Plan.

## 6.1 Application Review and Approvals

Prior to application of the municipal-led incentive programs, it is encouraged that any applicant has a pre-consultation with municipal staff to determine if their property and projects are eligible, required documents are provided, and if they are other financial incentives that may be of value.

Review and approval of applications is delegated to the CAO or designate. The CAO or designate are required to bring a recommendation to council for approval in the following situations where:

- The total incentives provided to one property are more than \$15,000 in one budget year.
- A Tax Increment Equivalent Grant is requested.
- A loan is requested.

Applications for loans need to be submitted by October 31 of the year prior. Timelines associated with applications will be developed using a subsequent process and be subject to change based on budget and availability.

A summary of approved financial incentives will be provided to council based on budget set for that year. Upon approval of a grant or loan, the applicant will be required to enter into an agreement with the municipality.

## 6.2 Phasing

Based on the municipal goals, planned projects, or other recently completed work for the community the municipality may choose to phase areas of the community improvement plan as in Section 4.3.6 of the official plan. If there are planned studies or projects upcoming based on public infrastructure, that may impact the result of a proposed eligible project that the application may choose to defer their incentive to omit duplication of work.

## 7. Amending Policies

### 7.1 Timeframe

The community improvement plan (CIP) shall remain in effect until council amends or repeal the by-law.

### 7.2 Amendments

Amendments to the community improvement plan (CIP) would not normally be required if a municipality is discontinuing or cancelling a program; or if funding to a program is decreased. Decisions respecting funding allocations to CIP programs are typically part of the annual council budget process. However, amendments to the CIP may be required for a change or expansion in the geographic area to which financial or land programs outlined in a CIP apply; or a change in the eligibility criteria (i.e. the addition of new municipal assistance programs involving grants, loans, tax assistance or land; or, an increase to a financial incentive to be offered within a municipal CIP program).

### 7.3 Participation

To carry out the community improvement goals and actions of this plan, the municipality may participate and coordinate in grants or loans with other levels of government pursuant to Section 28(7.2) of the Planning Act (1990) for the purpose of carrying out a community improvement plan.

## 8. Monitoring

Program monitoring shall occur on an annual basis to determine the following:

- a. Established targets from program uptake are being met.
- b. Desired outcomes for the downtown are being achieved.
- c. Program participants are completing their commitments.
- d. Overall benefits of the program.
