FIREWORKS

SAFETY INSTRUCTIONS

1. No children under eighteen (18) years old are allowed to use fireworks.
2. Choose a wide, clear site away from overhead obstacles. As an example, you need a 30 m x 30 m area for firing a roman candle.
3. **DO NOT FIRE IN WINDY CONDITIONS OR WHEN IT IS RAINING.**
4. Read all instructions on the fireworks. Plan the order of firing before you begin.
5. Use a good firing base such as pails, boxes or wheelbarrows filled with earth or sand.
6. Bury those fireworks halfway that do not have a standing base unless the labeling on the fireworks indicates otherwise. Set them at a 10-degree angle, pointing away from spectators.
7. Never light a firework in your hand or hold a lighted firework in your hand, other than a sparkler.
8. Light carefully. Always light the fuse at its tip.
9. Keep water nearby. Dispose of used fireworks (including debris) in a pail of water.
10. Never try to relight a firework that did not go off. Never try to fix a firework that is defective. Wait at least 30 minutes before approaching such a firework.
11. Keep fireworks in a cool, dry, ventilated place, away from children.
12. Enjoy your fireworks but remember safety should come first.
